PROFESSIONAL EXPERIENCE

KayaPermit Consulting
July 2025 – Present
Istanbul, Turkiye

Independent Consultant

- Providing professional regulatory compliance, administrative process, and corporate advisory services to businesses and organizations.
- Advising corporate clients on compliance with government incentives, grants, and legal regulatory frameworks.
- Collaborating with partner firms to deliver tailored corporate services and process management solutions.

Centro Telecommunications
June 2025 – July 2025
Istanbul, Turkiye

Field Support Specialist

- Supported telecommunications software solutions and system integration processes.
- Performed on-site installation, cabling, and hardware configuration of 5G-ready Huawei network devices.
- Delivered on-site IT support and infrastructure assistance for Yozgat City Hospital during an intensive two-week deployment.

Boenstitu
April 2025 - July 2025
Istanbul, Turkiye

Software Support Engineer - Remote

- Providing software consulting and support for an HR application in development as an external resource.
- Developing and maintaining an online education platform with a tech stack based on Node.js (backend) and Next.js (frontend).

Conforcus Consulting
Jan 2024 - March 2025
Istanbul, Turkiye

SAP CO-PS Consultant – Onsite

Projects:

- **Evyap (SAP CO Consultant):** Conducted fit-gap and process analysis across country operations using Signavio. Authored FS/TS documents for ABAP developments, mapped R/3 to S/4HANA migrations, and executed unit, debug, and integration tests across MM, SD, and PP modules.
- **TPAO (SAP PS Consultant):** Configured WBS structures and maintained S/4HANA master data. Authored UAT documents, created SAP Enable Now training simulations, conducted on-site integration testing, and provided post-go-live hypercare support.

Support & Enhancements:

- **Arçelik & Balparmak:** Resolved product costing and cross-module errors (MM/PP); synchronized master data inconsistencies across production environments.
- **Opsan Linde & Ishway:** Designed batch-input and mass-upload tools for MR22 price adjustments and multi-order settlement schemas.
- **Sistem Alüminyum & Subor:** Configured financial substitution/validation rules and automated period-end closing tasks.
- **Emlak Konut Asansör & Marsa:** Handled CO-PP scrapping configurations and executed full functional regression testing post-system upgrades.
